ORPHANS OF THE REVOLUTION

Right away, I'm referring to ourselves as the "orphans" of the revolution. Our leaders, the senior members of our family, have gone and left us. Our Grossvater, Hitler; our father, Rockwell; and even our big brother, Tommasi is gone from us now. But we have not stopped. Somehow we go on. As orphans, out on our own in the cruel world of naked struggle for survival, we have grown up fast and hard. Each of us separately has had to bear part of the awful burden formerly carried exclusively by the leaders we were only too happy and willing to follow.

There are those who tremble and become disheartened to the point of despair at the contemplation of our circumstance. We are without a leader for the first time. But the fact has to be faced the way it is. Yet, there are those out there who are concerned, there are those who are concerned enough to see to it that you read these words. To anyone with any real courage, these two things should be sufficient to show that we have all that's really necessary. We have become something altogether different. Anyone interested in going on through with this thing should have a good look at what we actually are.

Hitler represented the start, Rockwell the turning, and ourselves the end of a cycle. By comparison between now and then, Hitler and his men were gods in a very literal sense. Rockwell and the best and bravest around him were our superiors in every way that counts. We ourselves are miserable and unworthy. We are victims, end products of Jewish wars, of Jewish upbringings, of Jewish schooling, of Jewish morals and standards. Like it or not, the Jews have left their mark on the best of us. Take almost anyone today and stuff him into an SA uniform and, right away, the difference becomes apparent.

There is no steel, no flint-like quality. In the eyes and the bearing there is no fire. In the face there is not the same character, the same readiness and resourcefulness. Such a cruddy lot Hitler would have disowned out of hand. It would have filled Rockwell with second thoughts and dismay. Mussolini had once remarked of his own sad predicament that, had Michelangelo had only clay to work with, he'd have amounted to only a potter. It is untrue that we no longer have leaders to lead us. It is rather that we no longer have leaders to disappoint and betray.

We have failed in the past to give ourselves totally to the leaders we did have. Rockwell's energies and genius went squandered and largely rejected. Not only is Rockwell gone, his KIND is gone. Had Rockwell lived, he'd be approaching sixty years of age. What in hell, how much can be expected from ONE man? He represented the last of a noble age of Americans. He was among the last of a breed of aristocrat defending himself against the rottenness of the Jew. The Jew won. The Jew has won. Quality has gone out of life, the world is no longer beautiful. No longer the "Image of God", the human species has become the most disgusting, revolting animal on earth. It is the victory of the Jew.

All of your inward fears and outward weaknesses, everything which you hate about yourself is the work of the Jew. All that you have remaining is the purity, or relative purity, of the blood in your veins. You have nothing else. Only in that your face happens to be white do you bear any kind of relation or kinship to Hitler or Rockwell. Underneath, the resemblance is closer to the pack of miseries that these great men fought. Some of us are at least capable of hating what we have become. A few at least have the capability of hating what we have become. A few have the intelligence to be able to pin-point the Jew as being responsible. Tiny few can comprehend the

significance of any of it.

We are NOT the men our forebears were. Something is gone from inside. For lack of a better word, I'll call it nobility. The Jew killed it. An entire new crop of utterly unworthy, totally vacuous, and hopelessly blunted characters and faces are to be seen everywhere the sort of which positively didn't exist even thirty years ago. Race-mixing isn't necessary to kill a race. Killing the spark is enough. Our people are OUR PEOPLE because they HATE IT! And for this they also hate the Jew. Life has degenerated to the point of a dirty joke the butt of which is anyone unlucky enough to have been born. The very most anyone can now claim is a white skin. At the current rate, even that won't last another century. But while it DOES last, we have it in our power to make sure that the punchline to life's dirty joke comes at the expense of the Jew.

Hitler and Rockwell fought to keep something. The Jew succeeded in taking it away. Anyone assuming a conservative stance should be laughed out of existence. The tactics used to fight the Jew in the past have been what the Jew has actually destroyed. Hitler and Rockwell were GREAT men, truly BIG men. Generous and magnanimous men. Hitler and Rockwell were so big that they could afford magnanimity... or so they felt. They are gone. Today we are neither great, big, nor are we generous. We can't allow ourselves the luxury of decency. Hitler and Rockwell would have scorned our type. On the other hand, we still admire their beauty and would long for their return. We resemble too closely the qualities they hated. But we are in the service of both of them. We have been infected through contact with the evil which overcame them. Yet we are devoted to them.

We have come to resemble the Jew in many ways but, because of this, we HATE the Jew. In our determination for survival we have had to adopt the policies which the Jew used to wreck the work of Hitler and Rockwell. But we hate the Jew. We mourn the deaths of Hitler and Rockwell in having died defending honesty, kindness, and chivalry. But these things are as dead as the men who died for them. They are strange to us. Because of the Jew, these things have become fossilized, useless.

But we wish it were otherwise. How many join with us in this realization and this wish? The three stages just mentioned fall precisely in the pattern of three generations. Leadership is such a precious, delicate thing. That the wills and energies of thousands of individuals can unite behind a single consciousness is a wonderful thing but a thing of a wonderful past. The second generation, Rockwell, died younger than the first, Hitler. And the third generation died earliest of all: Tommasi. With Tommasi's passing, we did truly become orphans.

We are fighting a primitive beast and we have become a crude weapon. We have been robbed of all decency by an indecent vanquisher. Let us finally admit that to ourselves. For those who have been killed, for everything that they died for, let us fall upon our conquerors like animals. Let us tear them to pieces with our bare hands. We are a miserable pack of leaderless dogs but in that we have become invincible when we muster enough of the greatness that used to be ours and attack like mad dogs. We are the monster that can kill its master if only we will recall the outrages he has committed.

Let the final laugh to this bitter joke be the ghastly look on the face of the Jew as he empties his weapon on us in desperate, vain hope that he will have enough slugs to kill us before our fingers can tighten around his throat.

NAZIS OBJECT TO DAYAN'S VISIT

by Jeff Ulrich writing in *Pulse*

"We will never sacrifice our Christian blood to the low, Jewish clement," commented Colonel Casey Kalemba, representative of the Cleveland branch of the White Confederacy: UNITED WHITE PEOPLE'S PARTY.

When asked to comment about Moshe Dayan coming to Cuyahoga Community College to give a lecture on the peace negotiations between Arab and Israeli nations, Kalemba stated, "He is touring the United States and is trying to influence our college students to rally to his country's defense... he is trying to brainwash our youth."

Kalemba continued, "We shouldn't help a country that can't help itself... the Jews are anti-Christ, just like the Communists."

Captain Gene Smith, a member of the U.W.P.P. for over four years, said, "What the hell business does the United States have in the Middle East? Why doesn't Moshe Dayan take some of his Black brothers back home to fight his wars?"

"Let Moshe Dayan go to Cairo and preach, instead of feeding propaganda to our college students," said Capt. Smith.

Smith also stated that, "Moshe Dayan would perform a good deed by playing the Pied Piper of Beechwood, and take home all his

Jew friends."

The United White People's Party is an antecedent of the American Nazi Party founded in 1959 by George Lincoln Rockwell. Rockwell, the "American Fuehrer", was a Commander in the U.S. Navy Air Corps during WWII and a graduate of Brown University.

The American Nazis, of which the U.W.P.P. is a part, are strongly against inter-racial marriage and the distribution of extreme power to small minority groups.

While Rockwell claimed that his organization was not solely a racially-motivated one, other "political" principles were sublimated to the basic anti-Black and anti-Jewish theme.

The U.W.P.P. contends that these Jewish and Black groups generate the atmosphere which creates moral decadence. Local, national and international problems can all be solved by "solution to the Black problem and solution to the Jewish problem."

Locally, the U.W.P.P. is headquartered on Clark Avenue. Casey Kalemba, Party head, contends that members and sympathizers of the U.W.P.P. number in the thousands and that the group enjoys widespread popularity in the Cleveland area.

Kalemba and his followers have appeared at Cleveland Council meetings and plan to enter candidates in local political contests in the future.

As Kalemba concluded, "In other countries, the majority always rules. But in the United States, the minority rules... and those minorities are Jews and Blacks."

LIVING UNDERGROUND

Forging Your Own Phony I.D.

By Raymond L. Chaney

N.S.L.F. *Midwestern*
Coordinator.

Second in a Series

If you've read the first installment of "LIVING UNDERGROUND" you should by now have a basic education on how to get phony I.D. and what to do with it once you have it. The first part of our section on false I.D., "Acquisition and Use", contained in the last issue of the NATIONAL SOCIALIST, told you how to rip off authentic I.D. by posing as someone else. This section will be devoted solely to the art of forging passable I.D.'s all by your sweet, little self. The information contained herein is easy to learn, simple to work, and to the point.

Needless to say, if you either own or have access to some good printing and photographic equipment, you can turn out virtually any kind of identification (complete with picture!) that you want. If you don't have this kind of equipment to work with but can still get hold of a good typewriter and a mimeograph you would be surprised at what you can create with relative ease.

Start off by studying in detail real I.D. of the kind you'd like to forge. Can your present equipment handle the job? Have you considered renting equipment? Of course, a basic knowledge of printing methods is necessary. If you know anything at all about printing you're already half-way there. (For God's sake, don't try to get phony I.D. printed by a commercial printer!)

Anyway, if you DO know something about printing and have some equipment to work with, you should be able to turn out some good I.D.'s and the rest. There's not too much we can really tell you about here, as methods and applications differ according to what kind of equipment you have to work with. Just be sure you have a REAL piece of I.D. to study and to match your phony with. Use paper of color and weight that matches the original. Large type can be matched with press-on lettering that can be obtained at any art supply store. Regular type on most I.D.'s is of the Selectric design which comes on interchangeable balls that you can probably rent for fifteen or twenty dollars. Once you've got the new card printed, trimmed down to size, etc., you can easily fill in on it the information you want, sign your assumed name, even paste your picture on it, and laminate the finished product. Rub some dirt into the completed I.D. and bend it a little to make it appear used.

If you're short of equipment and don't have any money for renting, you might try the following method on a Xerox: Take a real I.D. card and mask

out all the information (name, address, etc.) with thin strips of paper the same color as the card itself and then make a Xerox copy of it. Make sure you use a machine where no one is standing near to watch you. If you use one of the newer machines that are out, you should be able to turn out a blank card that looks fairly close to the original, although a Xerox will only reproduce black ink on white paper.

Trim the paper copy, fill it in, sign it, laminate it, and take the steps outlined earlier to give it a worn appearance. It probably won't be good enough to fool a cop but it may be good enough to fool a store clerk when you decide to rent, under a phony name, that color TV or stereo system you've always wanted. Believe me, I've done it many times before and if it hadn't been for a rat, I'd never have been caught.

Some final pointers: Always have at least several different sets of I.D. prepared and stored in advance in case you need them, but never carry any more than two sets of I.D. on you at any one time. KEEP YOUR BIG MOUTH SHUT — let no one know your assumed identity unless absolutely necessary. Remember, the possession and/or use of false identification is a very heavy criminal offense which holds stiff penalties should you ever get caught! Also, try to gain a little experience with passing phony I.D. on small targets before you even think of ripping off a bank or something.

By the way, if you're the impatient type and don't want to invest the time involved in the methods we have discussed thus far, just find some poor soul about your age and physical description, knock him in the head with a brick and take HIS I.D.! (But be sure you use it and get rid of it fast before it gets too hot!)

Good luck!

ACTION REPORT

200 Nazi youths in S. Side melee

Chicago Tribune,
Monday, June 7, 1976

By Joseph Sjostrom
and Bernardo Esqueda

A RALLY of 200 white youths, led by members of the American Nazi Party to confront a nanticipated march by blacks through the largely white Marquette Park area, erupted into a rock and bottle throwing melee Sunday afternoon.

Although the black march, to protest lack of opening housing in the area, failed to materialize, the youths began throwing rocks and bottles at police, buses and cars occupied by blacks at 71st Street and California Avenue.

Four persons were arrested on minor charges.

AN OFF-DUTY Cook County corrections officer was shot in the left hand during the disturbance at Marquette Park, according to a spokesman for the

sheriff's office. He was identified as James Holdman, 38, and was listed in good condition at Little Company of Mary Hospital in Evergreen Park.

Meanwhile, a fire broke out at a vacant building at 71st and Paulina Streets. It was not known if the fire was related to the demonstration.

Much of the action took place near Nazi party headquarters at 2519 W. 71st St., where at one time in the hot, muggy afternoon about 150 youths assembled.

MANY OF THE youths wore T-shirts emblazoned with "White Power" slogans and swastikas and carried signs reading "Niggers Beware." They threw rocks and bottles at passing automobiles, especially those carrying blacks.

At Western Avenue, police stopped traffic on 71st Street and Marquette Road that was headed toward the park

four blocks west.

The police, many in riot helmets but some in plainclothes, later dispersed a group of chanting white youths in Marquette Park near its 71st Street boundary. The youths fanned out in the park but not before they had thrown bottles and debris at the pursuing police.

ASST. DEPUTY Chief Carl Dobrich, in charge of police operations, earlier lead 15 policemen from Western Avenue to California Avenue, stopping at the Nazi headquarters. He brushed past Frank Collins, a Nazi leader, and strode inside the storefront office.

Pointing to a pile of placards, Dobrich said: "This is inflammatory. Get four men in here and put them [the signs] in the wagon." More than 200 signs were confiscated.

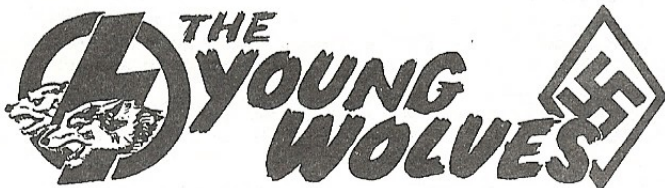

Dobrich said there had been no black march. "The Nazi party gathered this crowd and incited the community into this state of behavior," he said.

Observers at the scene reported several sporadic incidents and said at least 20 cars were damaged from rocks.

WE ARE DREAMING OF A 'WHITE RIOT'!

CHICAGO NAZIS ENTER ELECTIONS

Efforts of the NSPA in Chicago electoral campaigns continues with increasing in 1976. The petition being circulated at the moment in Chicago will give a good idea. One way or another, power, total power, will be ours! Wish our men in Illinois good luck so that the bloodbath which is looming ever larger on the horizon may be averted at the last possible moment.

NSPA BACKGROUND

From the ashes of Commander Rockwell's stunning successes of 1966 in Chicago begins a reorganization at a small meeting held on December 1st, 1968. The newly-formed NSPA receives its Baptism of Fire on April 5th, 1969, when Stormtroopers attack Marxists, capturing or destroying many Red banners. The headquarters of the NSPA, "ROCKWELL HALL", is opened on April 16th, 1970, in Chicago, Illinois.

The avenging of Rockwell begins in Chicago on August 1st with the overturning of a ban against free speech imposed against Rockwell six years prior. National Socialists return in triumph to Marquette Park on August 27th to speak before a rally of over two thousand persons.

The NSPA begins its electoral battle in early 1974 by entering two comrades for aldermen of Chicago wards. The Party aldermanic candidates receive approximately five thousand votes in their first political campaign. Party Leader, Frank Collin, receives the highest percentage of any American National Socialist, with sixteen percent of the vote.

Daley Asks Nazi Crackdown

CHICAGO — (UPI) — Mayor Richard J. Daley called on the courts Tuesday to shut down the headquarters of the American Nazi Party which led a "white power rally" in which 14 were injured and 32 arrested Sunday.

Daley said the city would seek a court order closing the headquarters "in the interest of fairness, in the interest of justice and in the interest of what's right."

The Nazi, or National Socialist, Party has been named by police as ringleaders of a crowd of white persons who attacked blacks with bottles, bricks and baseball bats in the Marquette Park district of Chicago's southwest side.

Some of the participants were decked out in Ku Klux Klan outfits. They gathered in anticipation of an open housing march by the "Dr. Martin Luther King Jr. Movement" which failed to develop. The crowd then turned on any blacks available, mainly motorists passing through.

NIGGERS & JEWS BEWARE!

WE ARE ON THE MARCH!!!

COMBAT REPORT: the BIG 'Q'

By Dyle Bitner
American National Socialist Brotherhood
San Quentin, California

As most people are aware, there have been neo-Nazi White Power cliques inside America's prison systems for many years. This is especially true in California in both State and Federal institutions. There probably aren't many who haven't read, at one time or another, news stories of violent incidents mentioning these groups as the main participants.

However it is not our purpose here to argue the validity of those news reports. Rather we would like to point out that these groups do exist and have been active for a number of years, despite continual pressure to disband them. Prison officials in the past years have been very quick to persecute our proud White brothers inside. Far too often, even clashes with other inmates have threatened the very existence of a united White Power movement.

Regardless of all the adversity, there is today a very dedicated group of men called the *American National Socialist Brotherhood* who are active inside the prisons. These men are the end result of years of conflict not only with prison officials, but veterans of untold number of racial conflicts that often resulted in stabbings and riot situations.

In 1974, our brothers of the A.N.S. suffered a series of major set-backs. These started with the stabbing deaths of two dedicated young men. These men were totally unarmed when they were "rat-packed" by five stinking niggers, all carrying prison-made knives. Within minutes, before retaliation could be effected, those same niggers were taken into protective custody and shipped to other institutions. Two of the five were eventually stabbed to death by A.N.S. members at San Quentin.

But this was only the beginning of the trouble in 1974. As a result of the stabbing of the A.N.S. members, serious arguing broke out within the A.N.S. ranks. Sparked by the stabbings and fueled by a conflict over changing of the by-laws, there was a split in the unity. Needless to say, this had a devastating effect on A.N.S. and White unity inside the prisons.

By the end of 1974, and in the beginning of 1975, A.N.S. was going nowhere fast. As soon as new members were recruited, old ones were paroled never to be heard from again. With the old leadership gone, a serious vacuum was left at the top and, with no direction, the organization ceased to be functional except as mediators in racial disputes.

But then something happened... Early in the spring of 1975, three big buck niggers decided that they were going "to let a little White blood flow." Their target was a young musician from the San Fernando Valley who they cornered in the TV room of one of the dorms. Unfortunately (for them), these niggers miscalculated on a number of things. First, this musician turned out to be not quite the "hippy" he appeared to be and, at the end of several minutes of fists, feet, and anything-goes, nobody was sure just who whipped who! But the musician was put in the hole (solitary) for his efforts. Meanwhile, the niggers went to "big mouthin'" about how they "sho' whipped that White boy..." That was another mistake...

Throughout the night plans were being laid for "the get-back". In small groups, and inside various dorms, the men from San Fernando Valley and the A.N.S. Brotherhood planned and agreed: At noon, the next day, they would attack those three niggers, take any others they could get, and send them all "on a midnight train over Jordan."

Had you been standing along the second tier railing at 11:45 that day, you would have seen a sight to make your heart swell with pride. At first glance, things did not appear unusual, but, if you were to watch carefully, you'd have noticed that there were a lot more White boys in the yard than usual.

As the hour of twelve drew near, suddenly five young men stepped out from the library, walking shoulder-to-shoulder. They all wore heavy jackets, gloves, and a blue-and-white bandana tied across their foreheads. This was the uniform of the A.N.S. hit team. They stepped out in unison with purpose in their stride, headed for the target area: It was comin' down!

The five walked without a backward glance. All eyes were on them. Everywhere White boys were moving to converge in a concentrated mass-attack. When they reached the bottom of the central stairway, there must have been two hundred White boys behind them. They reached the top of the stairs where they were met by five of the men from S.F.V. They opened the door to the first dorm that they came to, stepped in together, AND THE FIGHT WAS ON!

All hell broke loose! Not twenty of our men had cleared the top of the stairway when shots rang out across the yard like cannon fire! Windows started bustin', shouts echoed above the gunfire... "KILL

THE NIGGERS!!", "Kill them ALL!!" The back door of the dorm exploded open as riot-proof glass went everywhere with a herd of niggers bustin' out the door! One of the Nazis had a nigger by the coat and was banging him over the head with a fifteen-pound mop wringer. Another Nazi all but tripped over the first in his haste to stab another nigger that was trying to get away! The nigger must have decided that his life was worthless on that second tier because, in the next instant, he'd jumped off it to the ground below.

But even there he wasn't safe... As he hit the ground, another Nazi pulled a shank from his belt and plunged at him. Just then the ground exploded as a shot struck where the Nazi had just been. Having missed on his first lunge, the Nazi came up with a stroke of his blade... then... started for another nigger who must have set a world's record as the fastest nigger on two feet! Then, as quickly as it started, it was over.

Every nigger in the pen was clear on the other side of the yard: As far away from those "crazy White boys" as they could get! The cops had moved in and sealed the dorm where the fighting had started along with the next three dorms down the line. There were bullet holes in the windows, nigger blood was smeared on all the glass that wasn't broken.

That was spring of 1975. But '75 was going to be a long year. Before the summer began, A.N.S. staff officers were busy establishing contacts in prisons in other states and at the same time trying to make street-side contacts. One of the first attempts was a letter to Captain Joe Tommasi. As it happened, there was an A.N.S. member that had lived for many years in the El Monte area. He had known the Captain before coming to prison and had exchanged many letters with another past Party member, now with the N.S.L.F. Upon the Captain's receipt of the letter from Lt. Dyle Bitner of the A.N.S., the response was positive and sure. The groundwork was quickly being laid for a visit inside a prison visiting room between Lt. Bitner and an N.S.L.F. representative. Things were looking better than ever for A.N.S. Then tragedy struck... No sooner had the first series of historical meetings between A.N.S. and the N.S.L.F. taken place than the news was flashed on television... Captain Tommasi had been murdered!

For many days after, always one lone Nazi was kept walking in the prison yard, a dark-blue bandana tied neatly around upper left arm, in the symbol of mourning. A great man had died, a leader of his people, and a friend of this convict Nazi.

Already letters were being sent throughout the state, letters of condolence, solidarity and reassurance. Even in times of tragedy and great loss, the business of living must go on. And it did go on...

Under the firm hand of then Lt. David Rust, and with hardly missing a step, the A.N.S.-N.S.L.F. negotiations continued. With firm strides and strong dedication toward the goal of alliance and greater White unity, that had only been dreamt of thus far, it was becoming reality.

Now, with 1976 upon us, the alliance, our alliance, IS a reality. We of the A.N.S. Brotherhood and the A.N.S. Movement as a whole, have pledged an undying alliance with our brothers of the N.S.L.F. based on mutual trust and respect.

We must always remember that there are no easy battles, anything that has worth must be suffered for. Eventhough this alliance constitutes a giant step forward in the movement for real White unity, it is but ONE step. We all must strive not merely to maintain our alliance but to strive now for the even greater accomplishment of true Brotherhood.

It has been a long and hard battle and we must never let it be said that our suffering was in vain. We have lain good comrades to rest, suffered great losses, and yet we have accomplished something that has never been done in this nation's history: We have bridged the gap between the White Supremacist in prison and our Ideological Brothers in the street. Let no man set aside what we have brought together!

NATIONAL SOCIALIST

LETTERS TO THE EDITOR

Comrade Mason:

Recently I received a copy of the NATIONAL SOCIALIST and I congratulate you on the excellent new format. In addition, the contents were very informative.

The White Confederacy is an excellent idea and tool of revolution. I could not agree more with your position on the N.S.L.F. which has done well here in Southern California in keeping up the fight since the local NSWPP has gone under. The N.S.L.F. has continued its growth despite the murder of Capt. Tommasi.

Because of my young age, I was never involved with the old A.N.P. under Lincoln Rockwell or the NSWPP when it was under competent leadership, i.e., people like William Pierce. However your program of seeking out the good, well-picked men seems to be a good idea.

Keep up the good work.

WHITE REVOLUTION NOW!

B.V.

Santa Paula, Ca.

Dear Mr. Mason:

I just heard of the N.S.M. for the first time from Don Andrews of the Western Guard in Canada. Is it a formal membership organization or mainly a literature distribution front?

I must congratulate you on your efforts so far. Your literature is most attractive but I must admit that the term "National Socialist" and the use of the Swastika does not attract the vast majority of White people in America.

For White Race Survival.

Dr. Edward R. Fields

Ed. Note: In all due respect to Dr. Fields of the N.S.R.P., we have no interest whatsoever in any sort of majority. We are revolutionists and, therefore, the moment we found ourselves as part of a majority, we would have ceased to have been revolutionists. May God forbid!

Dear Mr. Mason:

Congratulations. As I have already said to Mr. Brannen, your latest issue of the NATIONAL SOCIALIST was excellent in form as well as content. We wish you unending success.

Thank you for your comments and kind invitation to join the White Confederacy. It is my intention to submit my formal application for membership as soon as it is practically possible.

I look forward to the opportunity to work with not only the N.S.M. but with all race-oriented groups. Only through this type of cooperative effort will we ever achieve a united White racist front.

Very truly yours,

Van D. Loman

Imperial Director, United Klans of America, Inc.

Dear Friend:

I guess when I see you next I will be able to talk about what has happened. By now we would have had sixty to seventy-five persons and at least three units operating.

I would have written sooner but I have been busy putting together the pieces. I have about fourteen to twenty people back together and active again.

Will see you this summer sometime.

Heil Hitler!

F.H. St. Louis, Mo.

Dear Mr. Mason:

I only see an occasional issue of Koehl's bulletin and haven't bothered to get one for several months now because I thought he'd died. Send me a couple of your clippings when you have a chance.

I'll just make a couple of comments now and then try to spell things out a lot more thoroughly in future issues of ACTION. I'm sure that your recent experiences have confirmed that most of the ideas and modes of action of the so-called "right wing", including the NSWPP, are so much crap.

The basic idea in the NSWPP is when the political situation becomes "ripe" enough the people will come to the NSWPP for leadership. That's somewhat like throwing a lot of planks, bricks, and nails up in the air and hoping that, when they come down, you'll have a house. We must MAKE the best blueprint we can and then BUILD our revolution, a step at a time.

We all have a lot to learn but I am more optimistic now than I ever was before.

Sincerely

William L. Pierce

Ed. Note: Dr. Pierce, as head of the NATIONAL ALLIANCE, issues the ONLY tabloid newspaper which the N.S.M. UNEQUIVOCALLY endorses and recommends to all its members and subscribers. For a sample copy of the newspaper of the National Alliance, ATTACK!, and its bulletin, ACTION, send a contribution now to P.O. Box 3535, Washington, D.C. 20007.

Comrade Mason:

National Socialist Greetings!! I recently received the N.S.M.'s articles concerning this creature, "Koehl", and let me say that the N.S.M.'s story could well have been my own.

This man has been like a heavy stone around my neck. He has for the past two years been trying to sabotage all serious NS work here in the San Francisco Bay area. We break our necks to build National Socialism in this area and he does everything to hold us down.

I realized long ago that something was horribly wrong at Franklin Road but thought that the only way to fight it was to show the correct way here in San Francisco. Finally, it came to the point where we were spending more time worrying about Koehl than building the movement.

He sent agents from the Los Angeles unit (or what's left of it) here, also a man named Rick Copper, and these creeps attempted to disrupt one of our meetings by trying to physically take some of our unit property away from us. Our stormtroopers threw them out of the building.

Please count me in for the future fight!

Heil Hitler!

Nazism still with us

The recent trial of two Nazi Party thugs in Milwaukee has significant implications for all who are convinced of the need to understand and remember history. A report of the trial quoted the judge and lawyers in the case as expressing surprise over the fact that 23 persons interviewed for jury duty were virtually ignorant about nazism. None of the 23 displayed outrage about nazism and its precepts; most had read little about Nazi activities in Milwaukee and did not associate nazism with Adolf Hitler, World War II, concentration camps or the murder of six million Jews.

One of the attorneys, Bruce O'Neill, said, "I may have assumed incorrectly that everybody associates the word 'Nazi' with concentration camps and the killing of the Jews." Judge Patrick Madden commented, "Other than the term 'Nazi' they didn't know anything about it."

The jury that was eventually selected heard evidence for almost two days and deliberated two hours before finding the two Nazi hoodlums guilty of criminal damage and disorderly conduct for threatening occupants of a car driven by a Milwaukee Jewish leader and smashing the vehicle's windshield with a club. A news dispatch noted that the Nazi Party has been active recently in Milwaukee and one of its leaders won 5 per cent of the vote in the mayoralty primary.

Widespread ignorance of nazism's meaning obviously is not confined to Milwaukee. We have no desire to exaggerate the size, power or significance of the comparative handful of kooks and hoods espousing nazism, nor do we want to minimize the racism inherent in the far-from-

extinct Ku Klux Klan—not only in the South, but in the industrial northern cities where irrational hatreds are exacerbated to explosion point by conflicts ranging from competition for jobs to school busing.

Nor is the problem peculiar to the United States. Professional hatemongers are active in almost every country—rewriting and falsifying history, scapegoating and vilifying Jews, blacks and other minorities.

In West Germany, for example, the Bonn Foreign Ministry recently warned that not since 1945 "has National Socialism been glorified so openly in speeches, pamphlets and activities—or the democratic, law-based state been so despised by its opponents—as today."

West German neo-Nazis distribute pamphlets such as "The Auschwitz Lie," denying Hitler's use of gas chambers in murdering six million Jews and millions of gypsies and other non-Jews. Even "The Dairy of Anne Frank" is not immune; leaflets calling it a forgery are being circulated. So far as East Germany is concerned, that state is and always has been a complete lackey of the Soviet Union. Its bureaucrats made the switch from Hitlerite to Communist merely by trading a black shirt for a red one. Taking its cues from Moscow, it cloaks its anti-Semitism in the guise of opposition to "racist" Zionism.

In recent weeks, this newspaper has reported manifestations of Nazi race doctrines and overt anti-Semitism in a number of European countries plagued by unemployment and inflation. As always, propagandists of the far left and far right thrive in times of economic distress.

In almost all of these instances, there is abundant reason to believe that Arab oil

Our task clearly is to study and understand the past not only for ourselves and our children, but to help cast light among the nations on the dark corners where neo-nazism is spawned and must be eradicated.
—The Jewish News of New Jersey

money is powering anti-Semitic activities. The Nazi goons in Milwaukee, the distributors of "Protocols of the Elders of Zion" and similar tracts, the neo-Nazis and their Communist cohorts in countries suffering economic dislocation are all allies in this social evil.

SQUIRM, YOU GREASY, SLIPPERY KIKES!!!

LETTERS TO THE EDITOR continued

Dear Mr. Mason:

I must congratulate the N.S.M. on its effort to put out attractive literature which draws a more favorable response regardless of the content. Many groups that are larger than the N.S.M. don't even take the time and put out the extra money to make their literature look attractive.

The N.S.M.'s decision to become a more nationally-oriented organization is a commendable one but don't forget that a national organization is merely a unified group of local organizations. Most rightists have tended to forget this. But I think the N.S.M. will do well and become a valuable asset to the movement.

Yours for White Unity and Victory
John W. Gerhardt, President
American White Nationalist Party

Dear Mr. Mason:

I was a supporter of the NSWPP in 1968. Maybe you remember me. We were arrested together in Maryland —

Homan, Willis, Kane, you and I.

As I look back, I might have been a sucker in some ways. I hung on in the NSWPP after Lloyd, Pierce and Kane left. I contributed money and distributed propaganda and I thought Koehl a person who was at least trying. But evidence has piled up, evidence I'm not going to ignore.

Franklin Road, I'm afraid, has spider webs at its front door. There is a philosophy of stagnation and treadmill. It could be that for years Koehl didn't intend to do much. I trusted Koehl but I can't ignore the "cub-pack" atmosphere.

Over the years who stayed? Not Nix, not Lloyd, not this one, not that one. It's not occurred that most of the vitality is away from Franklin Road. Almost every time I've been there during the day, it had all the excitement of a slow-motion film about a cemetery.

I wish the N.S.M. my best.

Sincerely
J.R., Washington, D.C.

MESSAGE from the N.S.M. CHAIRMAN

Since this is July, 1976, and all the hoopla about our country's 200th anniversary is going on, maybe we should discuss this — in light of the knowledge we now possess and, especially, with current world events and those which have affected our lives over the past fifty years in mind.

Each generation has its own battles which they, in their own minds, imagine happened ONLY to them.

We might forgive our parents who went off to the Great War of 1914-1918, came home and said "Never Again!" It was too terrible to think about or ever happen again. They came home and had their heyday during the Roaring Twenties living it up and trying to forget the horrible past. Not caring at all what happened to the rest of the world.

All that came to an end in the Depression when the manipulators decided to have another go at it. Following that, we entered the Second World War to see death and destruction on the grandest scale the world had ever seen. The cost in lives, money and resources has never and probably will never be calculated.

But — here we go again — down the same cotten pickin' road: MOST of the veterans of World War Two came back and went into the same escape pattern that their fathers had gone into after the First World War.

These men and women, as I have said, might forgive their parents for the mistakes made after WWI but this second generation of veterans has no excuse to offer their children who were sent off to fight NO-WIN WARS in Korea and Vietnam... To fight and die for the big money interests.

I am talking to YOU, veteran! Remember during the war, while we were at the front, what we were saying about it then? You remember... We said that we were fighting for the BIG MONEY INTERESTS. We knew we were the little pawns. Remember the scrap iron we sold to Japan? We joked at the time that we'd probably have it shot back at us. We were supposed to be dumb peasants and workers, but we KNEW IT!

Now, if we ignorant, uneducated people knew it, why didn't the smart politicians running the country — supposedly looking out for our best interests — know it?

Basically, to them, we on the farms and in the factories are nothing but slaves. When the demand for production falls off then we become mere cannon fodder to go out and destroy everything we slaved to build. In other words, to create for them the demand to rebuild it again.

I have tried to put it in the simplest terms so that even a child could understand. Honestly, there is no really mystifying puzzle to world politics. The manipulators and controllers want you to believe there is. They tell you it is too deep for you little peasants to understand. They would rather you not worry about it, let them take care of it, allow them to handle everything. Anyone in their right mind and with common reasoning can see how well the "Big Shots", the "Intellectuals", those actually running the government, have looked out after our welfare and best interests.

These things to them enabled them so see how much graft and corruption they could get away with and tax us to death on at the same time. This so that they can travel around the world on Congressional junkets and have a different broad every night. What you have seen in the

Hayes-Ray sex scandal in Congress isn't even the so-called "tip of the iceberg".

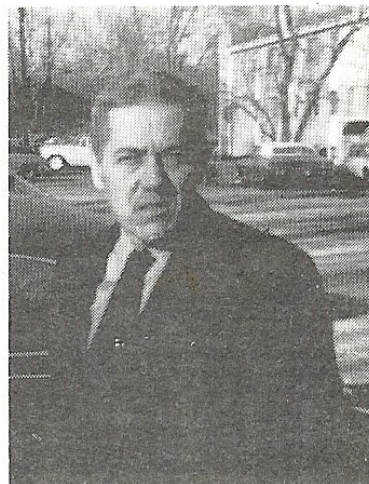

And that is where we are after two hundred years. People representing us in our government — looking out for their own gain, interests, etc. — while the country goes down the drain fast becoming financially and morally bankrupt with no real values or allegiances.

This is a time for ALL AMERICANS to take a break and reflect upon just where we are now and where our so-called "leaders" are taking us.

They are all guilty of negligence and it has reached the point where it has become CRIMINAL negligence where all those involved should be taken to the WALL to pay for their corrupt misdeeds.

I say to all Americans... Happy Birthday! You have a wonderful country and a chance to stay free — but freedom means eternal vigilance — and it must never be forgotten that in the last twenty years you have lost many of your freedoms.

WAKE UP! Get rid of the alien bastards and their accomplices! For your children's sake, HELP US! Give us every bit of support that you can muster, in any form whatsoever. WE have the know-how, the methods, the potential, the means of identifying and DESTROYING the enemies of our country. ARE YOU WITH US?

THE TRUE ARYAN KNIGHT

The following is a piece created by one long-time National Socialist supporter known to us in the Midwest. The article was first published as a letter to the editor in the TIMES-TRIBUNE of Corbin, Ky., in 1974. We felt that it was well worth presenting again here.

"The true Aryan Knight stands ready to carry out his historic mission upon the earth to win for the Aryan race a place upon the earth where they can earn their bread through honest toil.

"The true Aryan Knight holds himself aloof from the perversion, corruption, greed, and insanity around him. He knows that the corrupt, perverted peoples can't long live under the harsh laws of nature set into motion by the Almighty to preserve the earth and His Holy Race.

"The true Aryan Knight understands the laws of the Almighty and knows that the perverted peoples, races, nations and governments can't long stand. It is decreed by the Almighty that they must die. So the Aryan Knight today stands ready to carry out his mission given to him by the Almighty to preserve His Holy Race and the earth from the madmen.

"The true Aryan Knight sees a new age rushing upon the earth, changes brought about by the laws of nature set into motion by the Almighty to preserve His Holy Race and the earth, and to purge the earth of the unfit. The Aryan Knight does not look upon these changes with fear. He understands them to be the hand of the Almighty at work, to end all evil upon the earth."
